

# COMMUNITY LAND MANAGEMENT PLAN **REGIONAL**

# **Introduction**

## Management Plan for **REGIONAL** Open Space

A Management Plan is a document prepared in consultation with the community and relevant stakeholders that provides direction as to the use of Community Land. Management Plans assist Council to audit land stocks and in formalising the use of all Community Land parcels. The alienation of Community Land by lease or licence is also identified as part of the management structure.

A Management Plan covers all Community Land that is either owned or under the care, control and management of Council that has been developed for the benefit and enjoyment of the community. This Management Plan provides for all Community Land that has been placed into the Open Space Catchment Category of a **Regional** space.

## Legislative Requirements

When preparing a Management Plan there are various conditions to which local government must comply. Below is a list of the main legislation that influences the use and management of land included in this plan:

- *Local Government Act 1999*
- *Crown Land Management Act 2009*
- *Planning, Development and Infrastructure Act 2016*
- *Heritage Act 1993*
- *Aboriginal Heritage Act 1988*
- *Native Title Act 1994*
- *Dog and Cat Management Act 1995*
- *Landscape South Australia Act 2019*
- *Disability Discrimination Act 1992*

Council by-laws as listed below will also influence the use and management of land included in this plan:

- By-Law #1 - Local Government Land
- By-Law # 5 - Dogs
- By-Law #8 - Australian Arid Lands Botanic Garden

## **Open Space Catchment Category Description**

A **Regional** open space considers the community and potentially areas where people will travel between 30 and 90 minutes (in SA) to visit. A **Regional** space assumes areas where the following elements will apply:

- Cultural: Areas that have a unique historical or cultural significance
- Conservation/Environmental: Foreshore, Beaches and areas of natural significance
- Venues and Arenas: Areas of open space for specific events (sporting or other) that attract local and regional tourism

A register of Council owned or dedicated land that is classified as Community Land within the Open Space Catchment Category of a **Regional** space is contained in **Table A**.

# **Management Objective Strategies**

## **What are the Permitted Uses in this Management Plan?**

### **Permitted Use:**

This Management Plan for **Regional** spaces provides for a range of quality, leisure, recreation and sporting pursuits as well as works of an operational nature.

Based on the objectives of this plan, the uses permitted on any land covered by this Management Plan are:

- 1) The playing of organised and informal sporting games and the construction of facilities to cater for these activities.
- 2) Passive recreational activities and pastimes and the construction of facilities to cater for these activities.
- 3) The construction of community facilities and use of those facilities to allow individuals and groups to come together for social, community, educational, cultural, leisure and welfare activities.
- 4) The construction of playspaces to cater for children's play and recreation to support their physical, social, cognitive, creative and emotional development.
- 5) The conservation, protection and enhancement of areas of natural significance for future use and enjoyment by the community.
- 6) The provision of public facilities.
- 7) The generating of leases, licences, permits for community facilities and activities.

It should be noted that as a custodian of some land, Council must liaise with the owner, and obtain approval, for any development or change of use of Community Land that is proposed, prior to commencement.

NOTE: The earliest possible contact with the owner will avoid any possible delay in processing.

### **Existing Use:**

**Table B** outlines the current function of the land and proposed improvements to the land covered within this Management Plan. Any proposed improvements to the land including the timing and scope of the work are subject to available funding, as approved by Council.

Any changes to existing uses will, where significant, require public consultation and amendment of the Management Plan. The level of significance of a change is determined by the extent or type of proposal, by the importance the land has to be public, current users and future generations.

### **Permits, Licence and Leasing of Regional spaces:**

The granting of a Lease, Licence or Permit formalises the use of **Regional** spaces by groups such as sporting clubs, community groups, commercial organisations or individuals who are providing facilities or services for public use or are seeking use of a **Regional** space that is consistent with the intent and function of the land.

Activities under a Lease, Licence or Permit should be compatible with any zoning or reservation, provide benefits, services or facilities for users of the land, and be consistent with the Management Plan.

The terms and conditions of a Lease, Licence or Permit will ensure that proper management of the area is undertaken such that it is maintained in a safe and visually pleasing condition, and that the interest of Council and the public are protected.

There are a number of Leases, Licences and Permits issued to various sporting groups and individuals over land captured within this Management Plan – details of these agreements are outlined within **Table A**.

All Leases, Licences or Permits to be issued over Crown Land under Council's care, control and management must be approved by the Minister prior to the issuing of the lease/licence and any statutory fees and charges payable to the State Government, will be borne by the lessee as part of the lease/licence fee structure. Council must resolve to seek Ministerial approval to enter into a lease/Licence/permit over Crown Land.

### **New Leases, Licences, Permits and Renewal of Existing Leases and Licences**

A Lease, Licence or Permit enables Council to formalise agreements with organisations and individuals who occupy or manage Community Land. These agreements allow clear legal definition of the rights and obligations that an organisation or individual has in regard to the land whilst ensuring public access is maintained. From time to time Leases, Licences and Permits will expire, require renewal and/or renegotiation, and new leasing proposals considered.

The establishment of new agreements or changes to existing agreements will not require public consultation where there is no change to the proposed use or activity on that particular parcel of Community Land. However, where a Lease, Licence or Permit would result in a change of use, or is for a period exceeding five years, Council is required to consult with the community, pursuant to Section 202(3) of the *Local Government Act 1999*.

Granting of a Lease, Licence or Permit for a commercial activity is conditional on the activity being consistent with the Management Plan objectives.

Council will only grant a Lease, Licence, or Permit for use of Community Land under this Management Plan if it is:

- 1) Consistent with the current use and purpose of the land.
- 2) For activities appropriate to the current and future needs of the community.
- 3) Relating to wide community purposes such as public recreation and cultural development.

- 4) Anticipated that no significant damage to the land is caused as a result of the proposed activity.
- 5) That all suitable insurances have been sited by Council.
- 6) For short term casual Permits as listed below:
  - Casual playing of games or informal sporting activities.
  - The playing of a musical instrument or singing, for fee or reward.
  - A public performance (that is theatrical, musical or other entertainment for the amusement of the public).
  - Engaging in a trade or business.
  - Commercial photographic sessions.
  - Picnics and private celebrations such as weddings and family gatherings.
  - Filming for cinema or television.
  - Amusement/Sideshow activities and events.
  - Access requirements for special circumstances.
  - Artists and cultural events for the enjoyment of the community.

Furthermore, the use or occupation of a **Regional** space for short term Permits is allowed only if:

- 1) The use or occupation does not involve the erection of any building or structure of a permanent nature.
- 2) In the case of any use or occupation that occurs only once, it does not continue for more than five (5) consecutive days.

**Other Development or Activities that may be carried out on the Land:**

Below is a list of additional activities (generally of an operational nature) that typically may be undertaken on the land in accordance with Management Plan objectives:

- Multi-use Path Networks
- Drainage
- Horticulture
- Landscaping
- Sportsground maintenance
- Remediation works
- Temporary structures
- Community notice and advertising signs
- Vehicular access
- Enhancement of biodiversity
- Creation of easements for certain infrastructure
- Climate Protection works
- Disability Action Plan works
- Statutory Easements

### **Community Consultation**

Develop partnerships with community groups and organisations to ensure participation, appropriateness and/or suitability during the planning, design and maintenance needs of open space and playspace areas, to achieve a sense of ownership by the wider community (children, parents, elderly, disabled and so on).

## **Management Issues, Policies, Performance Targets and Measurements**

The Community Land captured within the Open Space Catchment Category for **Regional** spaces provide important focal points for community identity, social interaction and culture. Good design and maintenance of these spaces also provide an appealing image of the City.

The core objectives for management of **Regional** spaces are:

- 1) To provide a range of quality leisure and recreational services and programs which contribute to the well-being of the local community.
- 2) To promote and facilitate community involvement in the planning, development and management of leisure and recreational opportunities.
- 3) To minimise the environmental impacts associated with sporting and open spaces through water re-use management.
- 4) To ensure management structures and partnerships are entered into to reduce the level of vandalism and property damage within our city.
- 5) To enhance the landscaping and provision of public amenities for public use within Council's budgetary constraints.
- 6) To provide people with safe, equitable and dignified access to buildings in accordance with the Council's Disability Action Plan.
- 7) To provide the appropriate level of maintenance within Council's budgetary constraints and community expectations to ensure the land is safe for the general public.
- 8) To maintain **Regional** spaces in line with Council's Parks/Oval Maintenance Contract

**Table C** sets out the objectives for each of the **Regional** spaces and identifies the performance targets and measurements that Council strives to achieve.

While it is the intention of Council to meet its objectives, the commencement and completion of the performance targets are dependent on available Council resources and funding assessed against the other organisational priorities, during budget deliberations, on an annual basis.

## **Definition of Playspace**

**Regional** playspaces are similar to the District classification but with additional components that would attract both local and statewide visitors. This may be in the form of an adventure playground, water park, or unique aspect such as additional space for larger community events such as carnivals and concerts.
