

# COMMUNITY LAND MANAGEMENT PLAN **LOCAL**

# **Introduction**

## **Management Plan for LOCAL Open Space**

A Management Plan is a document prepared in consultation with the community and relevant stakeholders that provides direction as to the use of Community Land. Management Plans assist Council to audit land stocks and in formalising the use of all Community Land parcels. The alienation of Community Land by lease or licence is also identified as part of the management structure.

A Management Plan covers all Community Land that is either owned or under the care, control and management of Council that has been developed for the benefit and enjoyment of the community. This Management Plan provides for all Community Land that has been placed into the Open Space Catchment Category of a **Local** space.

## **Legislative Requirements**

When preparing a Management Plan there are various conditions to which local government must comply. Below is a list of the main legislation that influences the use and management of land included in this plan:

- *Local Government Act 1999*
- *Crown Land Management Act 2009*
- *Planning Development and Infrastructure Act 2016*
- *Heritage Act 1993*
- *Aboriginal Heritage Act 1988*
- *Native Title Act 1994*
- *Dog and Cat Management Act 1995*
- *Landscape South Australia Act 2019*
- *Disability Discrimination Act 1992*

Council by-laws as listed below will also influence the use and management of land included in this plan:

- By-Law #1 - Local Government Land
- By-Law # 5 - Dogs

## **Open Space Catchment Category Description**

A **Local** open space assumes space catering for the immediate community within walking distance (500m radius) from all residences. This is based on a principle that the whole community will have access to open space for relaxation and/or informal low key activities and should therefore include the aged, infirm; people without transport, parents with young children and people with disabilities etc all having equal access to green space within easy walking distance of their homes.

Local open space will have a predominant function of being passive and therefore designed accordingly. Such space may be used incidentally (e.g. walking through a park to the shops) or deliberately (e.g. to relax).

Key design elements could therefore include:

- Passive un-irrigated area
- Low key plantings
- Shade (natural)
- Seating (natural or bench)

Advanced elements could include:

- Minimal play equipment catering primarily for junior play opportunities (0-6\_ noting that not all local playspaces require equipment but can be used for natural play for toddlers.
- Some minor irrigated areas.
- Some high profile locations include subsurface irrigation.

A register of Council owned or dedicated land that is classified as Community Land within the Open Space Catchment Category of a **Local** space is contained in **Table A**.

## **Management Objective Strategies**

### **What are the Permitted Uses in this Management Plan?**

#### **Permitted Use:**

This Management Plan for **Local** spaces provides for areas within easy walking distance from homes and used for relaxation and/or informal low key activities.

Based on the objectives of this plan, the uses permitted on any land covered by this Management Plan are:

- 1) Relaxation areas for families and individuals.
- 2) Informal low key activities

It should be noted that as a custodian of some land, Council must liaise with the owner, and obtain approval, for any development or change of use of Community Land that is proposed, prior to commencement.

NOTE: The earliest possible contact with the owner will avoid any possible delay in processing.

#### **Existing Use:**

**Table B** outlines the current function of the land and proposed improvements to the land covered within this Management Plan. Any proposed improvements to the land including the timing and scope of the work are subject to available funding, as approved by Council.

Any changes to existing uses will, where significant, require public consultation and amendment of the Management Plan. The level of significance of a change is determined by the extent or type of proposal, by the importance the land has to be public, current users and future generations.

#### **Permits, Licence and Leasing of Local spaces:**

The granting of a Lease, Licence or Permit formalises the use of **Local** spaces by groups such as sporting clubs, community groups, commercial organisations or individuals who are providing facilities or services for public use or are seeking use of a **Local** space that is consistent with the intent and function of the land.

Activities under a Lease, Licence or Permit should be compatible with any zoning or reservation, provide benefits, services or facilities for users of the land, and be consistent with the Management Plan.

The terms and conditions of a Lease, Licence or Permit will ensure that proper management of the area is undertaken such that it is maintained in a safe and visually pleasing condition, and that the interest of Council and the public are protected.

There are Leases, Licences and Permits issued to various community groups over land captured within this Management Plan, however any application will be assessed on a case by case basis and would be included in the Community Land Management Land Register as outlined within **Table A**.

All Leases, Licences or Permits to be issued over Crown Land under Council's care, control and management must be approved by the Minister prior to the issuing of the lease/licence and any statutory fees and charges payable to the State Government, will be borne by the lessee as part of the lease/licence fee structure.

### **New Leases, Licences, Permits and Renewal of Existing Leases and Licences**

A Lease, Licence or Permit enables Council to formalise agreements with organisations and individuals who occupy or manage Community Land. These agreements allow clear legal definition of the rights and obligations that an organisation or individual has in regard to the land whilst ensuring public access is maintained. From time to time Leases, Licences and Permits will expire, require renewal and/or renegotiation, and new leasing proposals considered.

The establishment of new agreements or changes to existing agreements will not require public consultation where there is no change to the proposed use or activity on that particular parcel of Community Land. However, where a Lease, Licence or Permit would result in a change of use, or is for a period exceeding five years, Council is required to consult with the community, pursuant to Section 202(3) of the *Local Government Act 1999*.

Granting of a Lease, Licence or Permit for a commercial activity is conditional on the activity being consistent with the Management Plan objectives.

Council will only grant a Lease, Licence, or Permit for use of Community Land under this Management Plan if it is:

- 1) Consistent with the current use and purpose of the land.
- 2) For activities appropriate to the current and future needs of the community.
- 3) Relating to wide community purposes such as public recreation and cultural development.
- 4) Anticipated that no significant damage to the land is caused as a result of the proposed activity.
- 5) That all suitable insurances have been sited by Council.
- 6) For short term casual Permits as listed below:
  - Participation in formal and informal sporting activities.
  - The playing of a musical instrument or singing, for fee or reward.
  - A community group activity.
  - Engaging in a trade or business.
  - Picnics and private celebrations such as weddings and family gatherings.
  - Filming for cinema or television.
  - Access requirements for special circumstances.
  - Artists and cultural events for the enjoyment of the community.

Furthermore, the use or occupation of a **Local** space for short term Permits is allowed only if:

- 1) The use or occupation does not involve the erection of any building or structure of a permanent nature.
- 2) In the case of any use or occupation that occurs only once, it does not continue for more than five (5) consecutive days.

#### **Other Development or Activities that may be carried out on the Land:**

Below is a list of additional activities (generally of an operational nature) that typically may be undertaken on the land in accordance with Management Plan objectives:

- Multi-use Path Networks
- Drainage
- Horticulture
- Landscaping
- Open Space maintenance
- Remediation works
- Temporary structures
- Community notice and advertising signs
- Vehicular access
- Enhancement of biodiversity
- Creation of easements for certain infrastructure
- Disability Action Plan works
- Statutory Easements

#### **Community Consultation**

Develop partnerships with community groups and organisations to ensure participation, appropriateness and/or suitability during the planning, design and maintenance needs of open space and playspace areas, to achieve a sense of ownership by the wider community (children, parents, elderly, disabled and so on).

## **Management Issues, Policies, Performance Targets and Measurements**

The Community Land captured within the Open Space Catchment Category for **Local** spaces provide for the opportunity for easy access of areas within walking distance from homes that support relaxation and/or informal low key activities. Design should be flexible to encourage use of these open space areas for relaxation and well as for informal low key activities, and ensuring it minimises conflicts between users.

The core objectives for management of **Local** spaces are:

- 1) To provide a range of quality spaces to cater easy access by families within walking distance of their homes.
- 2) To promote and facilitate community involvement in the planning, development and management of quality open space areas and facilities.
- 3) To capitalise on the Council's water reuse program to ensure quality open spaces are available to the community at all times.
- 4) To enhance the landscaping and provision of public amenities for public use within Council's budgetary constraints.

- 5) To provide people with safe, equitable and dignified access to open space areas in accordance with the Council's Disability Action Plan.
- 6) To provide the appropriate level of maintenance within Council's budgetary constraints and community expectations to ensure the land is safe for the general public.
- 7) To maintain **Local** spaces in line with Council's Parks Maintenance Contract.

**Table C** sets out the objectives for each of the **Local** spaces and identifies the performance targets and measurements that Council strives to achieve.

While it is the intention of Council to meet its objectives, the commencement and completion of the performance targets are dependent on available Council resources and funding assessed against the other organisational priorities, during budget deliberations, on an annual basis.

## **Definition of Playspace**

**Local** playspaces in a local setting will primarily be targeted at younger children (1-6) due to the proximity to the home and the understanding that older children (6-12) can and may travel greater distances either on foot or bike with their parents or carers. Not all local playspaces need to comprise formal play equipment areas and could include an imaginative (natural) play area to ensure provision is complemented and not duplicated within short distances of each playspace.

### **Disclaimer**

The Port Augusta City Council has made every reasonable attempt to ensure the accuracy of the information presented in the following Tables. However, it does not guarantee the information is complete, correct or up to date and the information is subject to change without notice.

Port Augusta City Council will not be liable to any third party who obtains access to the information contained in the Tables under any law for any loss or damage (including, but not limited to, direct, indirect, economic and consequential damage) in respect of any matter whatsoever related to any information contained in the Tables.

# TABLE B

## Plans for Proposed Developments or Changes to Community Land

Common Name	Property Address	Description of Item(s)	Comments
Whiting Parade Reserve	Whiting Parade, Port Augusta	Introduce shade and formalise links via signage	Works subject to budgetary and resource constraints
Sid Gill Memorial Park	Smoker Street, Stirling North	Introduce natural shade and new seating to replace metal benches	Works subject to budgetary and resource constraints <i>Under Lease to CFS (Portion Only)</i>
Arthur Spring Park	Francis Street, Port Augusta	No proposed upgrade works	Continue to maintain at current standard
Keith Davies Memorial Park	Johnson Avenue, Stirling North	No proposed upgrade works	Continue to maintain at current standard
Peterson Street Park	Peterson Street, Port Augusta	Minor landscape, table, seating, new paving and shade upgrade	Works subject to budgetary and resource constraints
Pastoral Lawns	Pastoral Lawns, Port Augusta	Introduce seating within the Park	Works subject to budgetary and resource constraints
Nicholson Terrace Lawns	Nicholson Terrace, Port Augusta	Formalise desire lines and introduce seating; site identified as potential Future Dog Park.	Works subject to budgetary and resource constraints
Scharenberg Court Lawns	Scharenberg Court, Port Augusta West	Minor development to include planting, seating and natural shade. Revitalise garden beds with Arid Smart plantings	Works subject to budgetary and resource constraints
Apex Park CWA Hall and Lawns	Stirling Road, Port Augusta	Used as thoroughfare, replace benches	Works subject to budgetary and resource constraints <i>Under Lease to Minister for Education</i>
Flinders Place Reserve	Flinders Terrace, Port Augusta	No proposed upgrade works	Continue to maintain at current standard

Common Name	Property Address	Description of Item(s)	Comments
Cook Street Park and Garden Club	Elizabeth Terrace, Port Augusta	Passive/Network/liaise with Port Augusta Garden Club for any proposed works to formalise desire lines since area currently used for car parking	Garden Club Clubrooms Under Licence to Garden Club
