## Community Land Management Plan – BUSINESS & COMMUNITY GROUPS

**PortAugusta**  
CITY COUNCIL

# **Introduction**

## Management Plan for **BUSINESS & COMMUNITY GROUPS** Open Space

A Management Plan is a document prepared in consultation with the community and relevant stakeholders that provides direction as to the use of Community Land. Management Plans assist Council to audit land stocks and in formalising the use of all Community Land parcels. The alienation of Community Land by lease or licence is also identified as part of the management structure.

A Management Plan covers all Community Land that is either owned or under the care, control and management of Council that has been developed for the benefit and enjoyment of the community. This Management Plan provides for all Community Land that has been placed into the Open Space Catchment Category of a **Business & Community Group** space.

## Legislative Requirements

When preparing a Management Plan there are various conditions to which local government must comply. Below is a list of the main legislation that influences the use and management of land included in this plan:

- *Local Government Act 1999*
- *Crown Land Management Act 2009*
- *Development Act 1993*
- *Heritage Act 1993*
- *Aboriginal Heritage Act 1988*
- *Native Title Act 1994*
- *Dog and Cat Management Act 1995*
- *Disability Discrimination Act 1992*

Council by-laws as listed below will also influence the use and management of land included in this plan:

- By-Law #1 - Local Government Land
- By-Law # 5 - Dogs

## **Land Description and Planning**

A **Business & Community Group** may be defined as a Community Land parcel that is either owned or under Council's care and control that generally provides for a business or community group activity.

For the purpose of this Management Plan, each parcel of Community Land has been categorised based on its core usage. Therefore if a parcel of land's core role for Council purposes were to support Community Group activities, it would be placed under the Leisure category. The categories of Business/Community Group Community Land are:

- Leisure/Recreational
- Council Operational Centres
- Rental Dwelling

### ***Leisure/Recreational Facilities***

A *Leisure/Recreational Facility* is defined as a community accessible facility that provides for the enjoyment of passive and active leisure and recreational pursuits. The operation of these facilities is usually through an out source lease/licence/permit agreement.

### ***Council Operational Facilities***

A *Council Operational Centre* is defined as a Council business purpose facility that provides services to the community and is a site from which Council operates its business activities.

### ***Rental - Accommodation Dwelling***

A *Rental Dwelling* is defined as a residential property set aside for housing type accommodation to meet the needs of the community.

A register of Council owned or dedicated land that is classified as Community Land within the Land Description and Planning of a **Business & Community Group** space is contained in **Table A**.

## **Management Objective Strategies**

### **What are the Permitted Uses in this Management Plan?**

#### **Permitted Use:**

This Management Plan for **Business & Community Group** spaces provides for a range of business, sporting, accommodation and community group pursuits as well as works of an operational nature.

Based on the objectives of this plan, the uses permitted on any land covered by this Management Plan are:

- 1) The construction of community facilities and use of those facilities to allow individuals and groups to come together for social, community, educational, cultural, arts and crafts, leisure and welfare activities.
- 2) The granting of Leases for community facilities for such purposes.
- 3) Formal and passive recreational activities and pastimes and the construction of facilities to cater for these activities.
- 4) The granting of leases, licences, permits under Sections 200 and 202 of the *Local Government Act 1999* for activities appropriate to the objectives for the Business Area category.

Although Council may lease/licence a parcel of community Land, Council still has powers under a number of Acts to police a range of activities and behaviour in public places irrespective of whether Council has formal control over the land.

It should be noted that as a custodian of some land, Council must liaise with the owner, and obtain approval, for any development or change of use of Community Land that is proposed, prior to commencement.

NOTE: Lease/Licence/Permit Holders must comply with all Agreement Conditions.

### **Existing Use:**

**Table B** outlines the current function of the land and proposed improvements to the land covered within this Management Plan. Any proposed improvements to the land including the timing and scope of the work are subject to available funding, as approved by Council. These proposals may still be required to go through the normal council approval process where public input can be gained.

Any changes to existing uses will, where significant, require public consultation and amendment of the Management Plan. The level of significance of a change is determined by the extent or type of proposal, by the importance the land has to be public, current users and future generations and its proximity to other uses.

### **Permits, Licence and Leasing of Business & Community Group spaces:**

The granting of a Lease, Licence or Permit formalises the use of **Business & Community Group** spaces by groups such as sporting clubs, community groups, commercial organisations or individuals who are providing facilities or services for public use or are seeking use of a **Business & Community Group** space that is consistent with the intent and function of the land.

Activities under a Lease, Licence or Permit should be compatible with any zoning or reservation, provide benefits, services or facilities for users of the land, and be consistent with the Management Plan.

The terms and conditions of a Lease, Licence or Permit will ensure that proper management of the area is undertaken such that it is maintained in a safe and visually pleasing condition, and that the interest of Council and the public are protected.

There are a number of Leases, Licences and Permits issued to various sporting and community groups over land captured within this Management Plan – details of these agreements are outlined within **Table A**.

All Leases, Licences or Permits to be issued over Crown Land under Council's care, control and management must be approved by the Minister prior to the issuing of the lease/licence/permit and any statutory fees and charges payable to the State Government, will be borne by the lessee as part of the lease/licence fee structure. Council must resolve to seek Ministerial approval to enter into a lease/Licence/permit over Crown Land.

### **New Leases, Licences, Permits and Renewal of Existing Leases and Licences**

A Lease, Licence or Permit enables Council to formalise agreements with organisations and individuals who occupy or manage Community Land. These agreements allow clear legal definition of the rights and obligations that an organisation or individual has in regard to the land whilst ensuring public access is maintained. From time to time Leases, Licences and Permits will expire, require renewal and/or renegotiation, and new leasing proposals considered.

The establishment of new agreements or changes to existing agreements will not require public consultation where there is no change to the proposed use or activity on that particular parcel of Community Land. However, where a Lease, Licence or Permit would result in a change of use, or is for a period exceeding five years, Council is required to consult with the community, pursuant to Section 202(3) of the *Local Government Act 1999*.

Granting of a Lease, Licence or Permit for a commercial activity is conditional on the activity being consistent with the Management Plan objectives.

Council will only grant a Lease, Licence, or Permit for use of Community Land under this Management Plan if it is:

- 1) Consistent with the current use and purpose of the land.
- 2) For activities appropriate to the current and future needs of the community.
- 3) Relating to wide community purposes such as public recreation and cultural development.
- 4) Anticipated that no significant damage to the land is caused as a result of the proposed activity.
- 5) That all suitable insurances have been provided to Council.
- 6) For short term casual Permits as listed below:
  - Participation in formal and informal sporting activities.
  - The playing of a musical instrument or singing, for fee or reward.
  - A community group activity.
  - Engaging in a trade or business.
  - Access requirements for special circumstances.
  - Artists and cultural events for the enjoyment of the community.

**Other Development or Activities that may be carried out on the Land:**

Below is a list of additional activities (generally of an operational nature) that typically may be undertaken on the land in accordance with Management Plan objectives:

- Multi-use Path Networks
- Drainage
- Horticulture
- Landscaping
- Sportsground maintenance
- Remediation works
- Temporary structures
- Community notice and advertising signs
- Vehicular access
- Enhancement of biodiversity
- Creation of easements for certain infrastructure
- Climate Protection works
- Disability Action Plan works
- Statutory Easements

**Community Consultation**

Develop partnerships with community groups and organisations to ensure participation, appropriateness and/or suitability during the planning, design and maintenance needs of open space and playspace areas, to achieve a sense of ownership by the wider community (children, parents, elderly, disabled and so on).

# **Community Objectives, Policies and Proposals for Business Areas**

Land categorised as Business & Community Group Areas provide important spaces for community identity, social interaction and culture. Good design and maintenance of land categorised as Business Areas also project an appealing image for community and visitors to the area.

Council is required within Management Plans for Community Land to set out its vision for the land through objectives.

The core objectives for management of **Business & Community Groups** areas are:

- 1) To provide a range of quality spaces and management of such, to cater for various sporting, social, ceremonial, event and business activities.
- 5) To enhance the landscaping and provision of public amenities and facilities for public use within Council's budgetary constraints.
- 6) To provide people with safe, equitable and dignified access to buildings in accordance with the Council's Disability Action Plan.
- 7) To provide the appropriate level of maintenance within Council's budgetary constraints and community expectations to ensure the land is safe for the general public.
- 8) To maintain **Business & Community Group** spaces in line with Council's Asset Management Plans.

**Table C** sets out the objectives for each of the **Business & Community Group** spaces and identifies the performance targets and measurements that Council strives to achieve.

While it is the intention of Council to meet its objectives, the commencement and completion of the performance targets are dependent on available Council resources and funding assessed against the other organisational priorities, during budget deliberations, on an annual basis.

## **Disclaimer**

The Port Augusta City Council has made every reasonable attempt to ensure the accuracy of the information presented in the following Tables. However, it does not guarantee the information is complete, correct or up to date and the information is subject to change without notice.

Port Augusta City Council will not be liable to any third party who obtains access to the information contained in the Tables under any law for any loss or damage (including, but not limited to, direct, indirect, economic and consequential damage) in respect of any matter whatsoever related to any information contained in the Tables.
