

Recycling and Reuse

YOUR 240 LITRE RECYCLING (YELLOW LID) BIN WILL BE COLLECTED FORTNIGHTLY ON THE SAME DAY AS YOUR WASTE (RED LID) BIN (ALTERNATE WEEK TO YOUR ORGANICS GREEN LID BIN.)

✓ Drink cans, food cans, empty aerosol cans and clean aluminium foil or trays (rolled into a ball the size of your hand or placed in an aluminium can - like milo)

✓ Glass bottles and jars (rinsed and lids off)

✓ Paper (excluding carbon and laminate) and cardboard (newspapers, magazines, junk mail, envelopes, egg cartons, flattened boxes)

✓ Pizza boxes (without food)

✓ All rigid plastic containers (plastic drink bottles, yoghurt, icecream and margarine tubs, detergent bottles – rinsed and lids off)

✓ Lids can be recycled:

Hard plastic lids can be collected in a plastic milk bottle, sealed and once full placed into recycling bin. You can also slit a plastic milk bottle down the side and place lids from butter, margarine or ice-cream containers inside for recycling.

Metal bottle tops and jar lids may be collected in a can, crushed to seal and placed into recycling bin.

✗ Plastic bags

✗ Cling film

✗ Polystyrene foam

✗ Car parts or gas bottles

✗ Garden waste or tools

✗ Food scraps

✗ Nappies

✗ Mirrors or light globes/tubes

✗ Window or drinking glass

✗ Crockery, pyrex and ceramics

✗ Fabric or clothing

Did you know?

Biodegradable is different to recyclable or compostable. Biodegradable bags, cups, plates, cutlery and nappies must only be placed in your waste to landfill (red lid) bin
